

#4 NEWSLETTER – DECENT

Welcome to DECENT Newsletter #4 – April 2019

What is DECENT about?

The project DECENT “*Digital strategies of Enhancement of the basic skills among adults as a Chance to fight against functional illiteracy*” aims at increasing the effectiveness of the fight against functional illiteracy among low qualified adults who are at risk of a social exclusion in Romania, Poland, Bulgaria, Cyprus, Spain and Italy.

The project is funded by the European Union through the Erasmus+ Programme, Key action 2 (Cooperation for innovation and the exchange of good practices): Strategic Partnership for Adult Education. Its main **targets** are *low-skilled adults* who are at risk of a social exclusion (long-term unemployed, people at risk of poverty, low-educated people), but also *institutions* that support and care for adults at risk of social exclusion (adult education centres, social care institutions, adult schools, third-age universities, associations that support the fight against functional illiteracy and social exclusion) providing them with a very useful set of tools for their work.

What’s new about the project?

In the last months many results have been achieved!

The fifth transnational meeting in Palermo, Italy:

The 10th and 11th of April the partners of DECENT have met for their fifth transnational meeting in Palermo, Italy.

The meeting has represented an opportunity of discussion, among other things, on the work done so far, the results achieved and obstacles encountered, and on the way forward in the last months of project implementation.

In particular, the partners have concentrate their exchanges on the contents of DECENT’S eTool, a digital tool which will include 6 complementary modules, rich with interactive exercises and interesting ideas

on practical topics such as writing a cover letter and CV, learning how to recognize misleading offers and advertising, effective online communication, etc. The modules will be piloted with adult educators and learners in Italy, Bulgaria, Cyprus, Romania, Poland and Spain and made available online as a valuable contribution to the fight against functional illiteracy!

After the Palermo meeting, the partners are ready and enthusiastic to keep up the good work and continue working towards the successful implementation of DECENT.

What's next?

The DECENT partnership will soon finalize the IO2 eTool contents and conduct local workshops with adult educators and adult learners in order to pilot test the output and get feedbacks from its direct recipients.

The next and final partners' meeting will be held in Valencia, Spain, in July 2019.
